ABOUT

Hi, my name is Benjamin and I've been writing code since 1980. I'm obsessive about details. I like my coffee and #000000. I prefer my types dynamic, and my compilers fast.

- Developed an application for managing automated parking lots.
- Assisted in integrating the parking lot application with third party hardware.

Assistant to Director of IT — HY Louie Inc
Vancouver, BC — March 1997 - July 1998

- Helped fix computers, install applications, general trouble-shooting.

Software Developer — Cognologic Software Inc
Montreal, QC — September 1995 - March 1997

- Developed an online marketplace system.
- Developed an online system for selling satellite imagery.

Software Developer — BC Ministry of Forests
Victoria, BC — September 1992 - July 1995

- Developed a map viewer application

EDUCATION

Bachelor of Science, University of Victoria

1988 - 1993, Major in Computer Science
